

# Areas of No Return - January 2022

Assessments of Areas of No Return began in August 2018, updated every two months. For each update:

1. New locations may be registered as no return as they become known to assessment teams.
2. Locations of no return may be removed from the list if they have witnessed returns since the last round. Once a location is removed, they remain off the list.

Reported reasons for no return fall into two main categories

- a) Security reasons, including instability or inaccessibility
- b) Housing damage and lack of services and infrastructure
