

## Displacement and Returns Update

Returns Working Group, 29 November 2022

# Displacement Index

- The Displacement Index (DI) is a tool is designed to measure the severity of conditions in locations of displacement.
- Data is collected quarterly through RARTs and key informant interviews.
- The unit of the analysis is the location, which can be a town, village or neighborhood in a city.
- Data collection for the DI takes place across 18 governorates, around 100 districts and 2,700 locations of displacement in Iraq.

## Displacement Index

# Overall severity

High Severity	Medium Severity	Low Severity
6%	27%	67%
58,608 IDPs	265,584 IDPs	660,312 IDPs
125 locations	585 locations	1,987 locations

November 2022 5

## Overall severity

Salah al-Din showed the greatest reduction in the number of IDPs living in severe conditions, with -9,402 individuals between October 2021 and September 2022, due to improvements under the livelihoods domain which reduced from 'high' to 'medium' severity. The indicators of 'households without income sources who rely on aid' and 'households without enough funds for food' showed the greatest improvement.

This was followed by Kirkuk (-2,568) where improvements under the social inclusiveness domain were observed, particularly under the indicator of 'restrictions affect daily life' and 'unequal access to rental house', and Najaf (-2,118) however this reduction can be attributed to a lower number of IDPs assessed.

## Hotspots per governorate

Subdistricts are classified as 'hotspots' if they score highly in terms of the overall severity and have at least 1,000 IDPs residing in the subdistrict. In Round 4, six hotspots were identified across four governorates. The top three hotspots based on the highest number of IDP residents are Markaz Tuz Khurmatu and Markaz Tikrit in Salah al-Din, and Al-Amirya in Anbar governorate.

GOVERNORATE	DISTRICT	SUBDISTRICT	NO. OF LOCATIONS	NO. OF IDPS
Anbar	Falluja	Al-Amirya	21	16,134
Baghdad	Mahmoudiya	Al-Latifya	9	6,384
Ninewa	Al-Ba'aj	Markaz Al-Ba'aj	9	7,404
Salah al-Din	Tikrit	Al-Alam	11	3,708
Salah al-Din	Tikrit	Markaz Tikrit	26	9,480
Salah al-Din	Tuz Khurmatu	Markaz Tuz Khurmatu	13	16,230

## Displacement Index - DASHBOARD

Available at: https://iraqdtm.iom.int/DisplacementIndex#Dashboard

# Monitoring of Yazidi Departures

### Cross-Border Monitoring of Yazidi Departures (Aug – Nov 2022)

### Cross-Border Monitoring of Yazidi Departures (Aug – Nov 2022)

 3,825 Yazidi individuals recorded crossing Ibrahim Al-Khalil from 24 August to 26 November 2022

#### Departure point:

- 75% leaving non-camp locations
- 25% leaving from camps

#### Destinations:

 Greece (47%), Germany (32%), Türkiye (11%), Netherlands (10%)

#### • Returns:

- Return flows are monitored under a separate data collection exercise
- Some returns reported, including deportations and voluntary returns
- Voluntary returns due to lack of funds or defrauding
- In November, 17 Yazidi returns observed

### Flows of Yazidi Individuals (Aug – Nov 2022)

Ibrahim Al-Khalil Border Crossing Point - Number of departures (Camp/ Non-camp)

### Flows of Yazidi Individuals (Aug – Nov 2022)

#### Demographic information

- Sex
  - 60% male
  - 40% female
- Age
  - 70% aged 18 and over
  - 30% aged 17 and under
- Sex and age disaggregation
  - Larger share of female travellers are under 18 than male travellers
    - 37% female vs. 26% male
- Vulnerable groups
  - Pregnant people and people with disabilities observed (64)
