Areas of No Return - June 2021

Assessments of Areas of No Return began in August 2018, updated every two months. For each update:

- New locations may be registered as no return as they become known to assessment teams.
- Locations of no return may be removed from the list if they have witnessed returns since the last round. Once a location is removed, they remain off the list.

Reported reasons for no return fall into two main categories

- Security reasons, including instability or inaccessibility a)
- b) Housing damage and lack of services and infrastructure
