National

- **Determine** how/what humanitarian functions & expertise integrate in DS structures
- **Cluster** transition plans would be determining
- **Transition** of Hum. structures in DSTWG helps to:
 - Ensure technical. capacities & implementation are leveraged to contribute to achieving DS
 - Retain technical expertise + continuity for residual hum. needs; + links with long-term programming
 - Enable technical engagement with Gov. for capacity building and institutions strengthening

Sub-National (options and considerations)

- **Integrate** some cluster key functions in ABCs (areas uncovered remain un-addressed)
- **Governorate**-level transitional forum with an area-level focus (POAs for hotspot areas)
