DSTWG General Updates

DSTF Meeting #11 (19 July 2022)

- **Endorsement of New ABC Focal Points**
- Donors asked about the involvement and support to NGOs who are supporting the ABCs given the inability to access UNSDCF funding (arising from NCCI survey and Focal Point Survey). Organizations have been encouraged to use their involvement in the ABCs and the PoAs to bilaterally fundraise. Discussion ongoing on structural support to NGOs.
- **Endorsement of Cluster Focal Point participation in the ABCs**
- **DSTWG Updates**
- Livelihood subgroup initiation
- ABC/PoA updates
- Advocacy on sector priorities and locations.
- DSTF members asked about government involvement in the ABCs and how they can share advocacy points on the transition.

Discussion/Questions?

Transition – 2023 Humanitarian Response Strategy

OCHA June Options for 2023 Response Planning provided the following:

- Option 1: No Response Plan or Strategy
- Option 2: Light Strategy Paper
- Option 3: Extension of 2022 HNO and HRP into 2023
- Option 4: Limited HNO and HRP for 2023
- Option 5: Full HNO and HRP
- Option 6: Joint Humanitarian-Development-Government Transition Plan

Option 2: Light Strategy

Would set out the main need that the government and development partners are not expected to be able to cover for 2023 and define the HCT's recommended priorities for humanitarian actors and donors. This would help donors and agencies to prioritize support for 2023 after clusters have deactivated.

Possible areas for DS input?

- Better linkages between the humanitarian priorities and supporting displacement affected communities?
- Working towards a nexus approach for the light strategy approach?
