

BA'AJ

JUNE 29, 2022

COMPLEX	NUMBER OF RETURNEE ¹	NUMBER OF IDPS ²	ESTIMATES OF IDPS REMAIN IN THE MAIN AOD ³	GOVERNORATES OF LAST DISPLACEMENT
Al Risala	2,286 Ind.	1,134 Ind.	4,000 Ind.	Ninewa
Al Sakar	1,278 Ind.	N/A	7,000 Ind.	Ninewa
Hamdaniya	1,614 Ind.	N/A	4,500 Ind.	Ninewa & Erbil

1 Returnee figure are based on DTM Dataset Round 126, covering the months of April, May, and June 2022

2 IDP figure are based on DTM Dataset Round 126, covering the months of April, May, and June 2022

3 Area of displacement figure are based on other sources

STRATEGIC OBJECTIVES	NEEDS (REACH ABA, 2021)	IMPLEMENTED/ONGOING	PLANNED INTERVENTIONS	REMAINING GAPS
Basic services: Education	Warehouse for storing books and desks Computers and printers for schools = 50 Basic furniture for 40 schools Laboratory equipment for 2 schools	Provision of TLM Rehabilitation of primary school (Al Ba'aj First School for Girls) Provision of school furniture Rehabilitation of teacher guest house School feeding schemes Training and capacity building for ALC teaching staff, Non-Formal Education for out of school youth. Advocacy campaigns, 'back to school' campaigns for parents Mediation support for out of school youth enrolment Renovation of WASH facilities (Al-Badiya School for Girls and Anmar Bin Yaser Sec School for Boys) Rehabilitation of Al-Ashaary Primary School for Boys and Girls in Al Ba'aj Rehabilitation of Al Ba'diya First School for Girls Government refurbishing school in Al Sakar	Construction of teacher's accommodation in Hamdaniya Complex (IOM), completed in 3-4 months.	Wash Facilities of Al Badiya School for Girls are under renovation. Warehouse for storing books and desks Basic furniture for schools Laboratory equipment for schools Lack of teachers (Needs to be raised with local Government Authorities)
Basic services: Electricity	Reconstruction of Al-Ba'aj Electricity Building Warehouses Electrical equipment (Poles, transformers, capacitors, circuit breakers) Vehicles Expansion of electricity network (Al-Sakar)	Rehabilitation and Re-Stringing for 33kv Over Head Transmission Line between (Sinjar Mobile 132kv SS) and (Baaj 33kv SS), completed. Supply of Distribution Transformers (75 x 250 KVA) to Baaj to villages South of Baaj Supply of Electrical items to Baaj (Poles, transformers, capacitors, circuit breakers) Supply Transformers (80 x250 KVA) to Centre of Ba'aj	No planned activities	Government looking to extend electricity network Vehicles are required
Basic services: Health	Establishment of new PHC(s) (Al-Risala) Medical equipment and furniture Staffing Medical storage house	Mobile services (Al Hamdaniya) Rehabilitation of Ba'aj Hospital, furnishing and medical equipment Rehab, furnishing and equipping of Um Rabian PHC Capacity building Gynecological services (delivery room and consultations)	No planned activities	There should a needs assessment on medicine/supplies (DARI/IHAO) Now that Baaj Hospital is finalized, how is the referral mechanism between complexes working? (DARI/IHAO) Establishment of new PHC Al-Risala (Needs to be government-led)
Basic services: Infrastructure	1) Rehabilitation of main roads	Government has done compaction of roads towards Sakar Governorate has budgets to tarmac these roads. (60 BLN IQD)	No planned activities	General rehabilitation & compaction of roads (done by local government authorities)
Basic services: WASH	175 wells need refurbishing in the villages, depending on water Quality may also need RO plants Expansion of sewage network Equipping of municipality with sewage suction truck	Restoration of damaged water pipeline in Hay al-Risala	Installation of RO unit, and rehabilitation of domestic water wells in Hamdaniya Complex (IOM). UNDP to establish RO plant and solar wells in each of the complexes	Provision of trucks to governorate needs to be taken care of (currently mostly private) Basic water access will be provided through planned IOM and UNDP activities

STRATEGIC OBJECTIVES	NEEDS (REACH ABA, 2021)	IMPLEMENTED/ONGOING	PLANNED INTERVENTIONS	REMAINING GAPS
Housing and HLP	Rehabilitation and construction of houses Processing compensation claims	Rehabilitation of houses (Category 4) +/- 400 Debris removal for HHs Provision of shelter kits Rental assistance	Debris removal and shelter rehabilitation of 110 shelters in Hamdaniya Complex (IOM). DRC is planning to start mobile legal services including awareness raising, counselling and representation for civil documentation and HLP cases.	Room for additional shelter needs in Hamdaniya complexes based on number of expected returnees (potential scale-up of current IOM activity) Uninhabited mudhouses in all compounds require latrines (IOM + SI to discuss)
Documentation and rights	CAD to start operating on unified ID cards (being taken care of by the government)	Legal service provision, civil documentation assistance Community support center (awareness raising and counseling on legal related matters) Rehab of Ba'aj court and provision of furniture	DRC is planning to start mobile legal services including awareness raising, counselling and representation for civil documentation and HLP cases.	General need for access to legal documentation (follow-up with DRC)
Livelihoods	Agricultural Infrastructure rehabilitation projects (wells, sheep dips, milk machinery, animal shelter) Reclaiming of land Practical skills for job seekers Capacity building of agricultural department to facilitate support to farmers Livelihood opportunities for women and youth Diversification of agriculture Equipping farmers with solar energy systems	Vocational training and employment for rehabilitation and construction Warehouse has been completed (UNDP) Business grants, small business support Business and financial management training Home gardening (seeds, toolkits), including for FHHs Distribution of milk mechanism for sheep owner; bread oven Rehabilitation of water channel and local storage, beekeeping, sheep dips, poultry farm	Provision of individual livelihoods assistance to 110 individuals in Hamdaniya Complex (IOM). Build capacities of Agriculture department in Baaj and Hamdaniya/tractors (WFP) Equipment of machines for olive production (WFP)	Water distribution to livestock/agriculture Great need for replenishment of livestock in Sakar/Resala Complex
Safety and security	Strengthening CBP activities (focus on sustainable interventions)	GBV, CP Case Management Parenting support programs, awareness raising Interagency referrals Rehabilitation and furniture for National Security building in Baaj Rehabilitation and furniture of Ba'aj police Station Building	No planned activities	No current gaps
Protection (not a standing alone SO, but distinguished from safety/ security)	N/A	Multi-purpose cash assistance (DRC)	DRC has reached 216 HH in Al Sakar complex with MPCA in early 2022 (R2 and R3) and there are still eligible individuals in all three complexes. There are lots of protection needs, including high incidence of early marriage, GBV, school dropouts and vulnerable persons with disabilities.	There is a need for awareness raising and information dissemination on early marriage and child dropouts from school, general protection and GBV case management services, PSS and activities targeting persons with disabilities. (potential DRC scaling-up)
Social cohesion	1) Rehabilitation / construction of social center (for community meeting, events & celebrations).	PVE Local peace committees operating at district-level Capacity building of CBOs		Very little information on social cohesion needs, assessments needed.
Government leadership		Refurbishing 3 school Building two new schools Tarmacking road across 4 collectives (12 km of road) Refurbishment of 3 PHCs		Government could improve support in providing water to complexes

IMPORTANT CONSIDERATIONS

<p>Main challenges</p>	<p>The difficulty in reaching these complexes. Droughts as main problem due to agricultural society in complexes.</p>	<p>Obtaining permission to access the locations and community expectations/ social cohesion in Al Risala – during one blanket assessment many households travelled from Erbil for the assessment which risked creating conflict so the assessment was suspended.</p>
<p>Intentions of IDPs in AOD</p>	<p>Intentions to return seem quite low. Access to livelihoods in urban centers much stronger.</p>
