

DSTWG Meeting # 18

11 May 2022

حلول دائمة في العراق
Iraq Durable Solutions

Agenda

حلول دائمة في العراق
Iraq Durable Solutions

- Tour de Table
- Action Points from April
- General DSTWG Update
- ABC Update
- REACH – MCNA budget breakdown
- DS Discussion (Transition, DSTWG-ABC needs analysis)
- A.O.B.

- **TCC** to suggest the third question on social cohesion to be added to MCNA.
 - Revision of social cohesion questions/indicators for integration of MCNA questions in DS M & A Framework provided
- **REACH** to finalise the questions as well as the areas of coverage and share with the DSTWG members before the next DSTWG meeting in May.
 - To be presented in detail in this meeting
- **DSTWG members** to participate in the ICCG meeting on 21 April on the transition discussion.

East Anbar ABC Focal Point

- Mercy Hands is selected as the third focal point

ICCG meeting and transition discussion (discussed under DS discussion)

- DSTWG co-chairs presented with 4 volunteer members
- Agreed to have a series of meetings
- Prepared questions for TAG
- Clusters and sub-clusters working on risk analysis
- Predicted: No more ICCG after Dec 2022
- Clusters which will transform to sectors include gov counterparts
- Requires more in-dept discussion
- Workshop with ICCG members?

Call for new ABC members

- 55+ ABC membership applications received

Suggestions

- Call for expression of interest – FP Kirkuk (to replace NRC)
- Third FP for West Anbar, SAD, Diyala, Ba'aj?

Housing & HLP No update as of yet

- Two meetings in April with the Shelter and CCCM clusters) to discuss on the new guidelines in the integration of informal sites in urban areas.
- Another meeting next week to agree on the final content of the guideline.

Monitoring & Assessment

- Received the last inputs in the monitoring framework and in the process of incorporation

Social Cohesion:

- Revision of social cohesion questions/indicators for integration of MCNA questions
- First meeting of the NES / Iraq
- Presentation to NCCI members to join the TCC
- IOM: under recruitment to reinforce social cohesion expertise dedicated to support the DSTWG

Facilitated Movement

- No update.

Kirkuk Met with Governor to discuss role, cooperation and selection of deep dive villages

Sinjar ABC deep dive coordination: Tel Banat/Tel Qasab. Template shared for design/further circulation

Ba'aj New Intersos FP in-country and briefed on Ba'aj ABC. Deep Dive, 5 locations underway

Mosul PoA under proof-reading; deep dive currently being planned

Diyala Deep dive conducted. Next meeting- 9 May. Consolidating community consultation

E Anbar Coordination-in-practice session (deep dive conducted, 27 Apr) on Al Garma District

W Anbar Coordination-in-practice (deep dive conducted, 26 Apr on Ana (Al-Sagra & Rayhana)

SAD Coordination in practice (deep dive coordination) conducted on 28 April

3 DS-related questions for MCNA

For Monitoring Framework

Budget breakdown

| Item | Cost (USD) |
|----------------------|------------|
| Staff | 21,072 |
| Enumerators | 14,208 |
| Travel and Transport | 10,080 |
| Support cost | 7,500 |
| REACH HQ cost (7%) | 3,700 |
| | 56,560 |

Notes

- 9 enumerators for 40 working days
- Travel and support: 4 REACH drivers to provide transportation to the enumerators for 35 days

Number of target host community & Districts

حلول دائمة في العراق
Iraq Durable Solutions

- 10 districts (Erbil, Sumail, Sinjar, Al-Fallujah, Baquba, Tooz Khurmato, Al Rutba, Al-Baaj, Al-Hawiga, and Al-Hatra (pending security))
- Approximately 1,300 host community members

DS Discussions

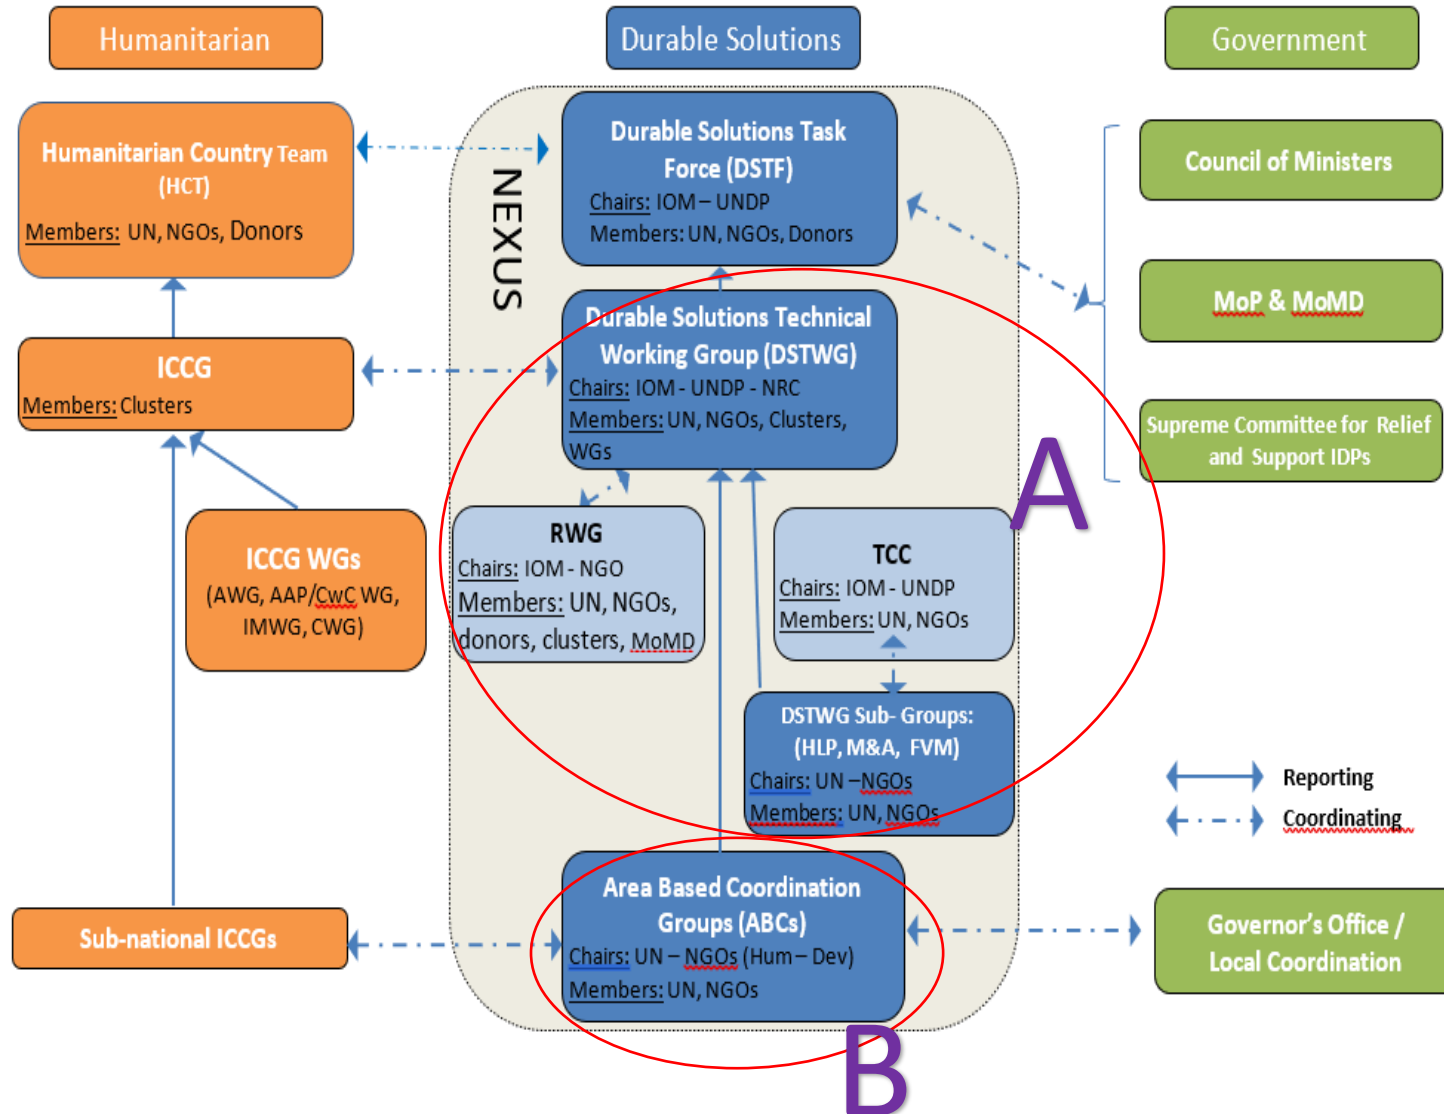

Transition Proposal
for
DSTWG-ABC

by IOM

Structure, Leadership and Membership

Transition Focus

Nexus Approach - DS requires engagement from humanitarian, development, stabilization and peacebuilding actors

A. National Structure ---DSTWG

Technical guidance, advocacy, 4Ws mapping (national/countrywide), exit strategy, knowledge transition

B. Sub-National ---- ABC Groups

Area level mapping, planning, implementation, coordination, analysis of target locations (PoAs),

A. Transition proposal – National level

- Aim: For DSTWG to determine how, and what current humanitarian coordination functions and technical expertise can be integrated within DS structures as clusters transition?
- Will depend on cluster transition plans
- Transition of humanitarian structures into the DSTWG would help with the following:
 - Ensure that remaining **technical capacities and implementation are leveraged** to contribute to a shared goal of achieving Durable Solutions, doing so in a coordinated manner
 - **Retain the cluster technical expertise** and would ensure continuity for the residual humanitarian needs and provide for smoother links with longer term programming
 - **Enable technical engagement with government** to allow for capacity building and institutions strengthening

National Level – DSTWG Sub-Group

| DS Specific Objectives | Cluster/Working Group | Existing DSTWG sub-groups |
|---|--|---------------------------|
| S01 Government Leadership and Institutions Strengthening | | |
| S02 Housing and HLP | Shelter & NFI, Protection (HLP SC) | Housing & HLP |
| S03 Livelihoods | Emergency Livelihoods, Cash WG, Food Security | |
| S04 Basic Services | Education, Health, WASH, Food Security, Shelter &NFI | |
| S05 Documentation and Rights | Protection | |
| S06 Social Cohesion | | Social cohesion (TCC) |
| S07 Safety and Security | Protection, Mine Action, GBV, Child Protection | |
| S08 Facilitated Movement | CCCM | Facilitated Movement |
| | Intersectoral | Monitoring & Analysis |

A. Challenges for consideration-DSTWG

- Durable Solutions goals of the architecture vs cluster goals
- Reconciliation of different approaches, government engagement/partnership and humanitarian sensitive issues?
- Issues that do not fall within DS sectors, eg humanitarian access

B. Transition proposal – Sub-Nat level ABCs

Key considerations between sub-national coordination:

- Objectives (humanitarian versus DS)
- Capacity (dedicated full-time staff versus volunteer double-hatting FP/IM Support)
- Geographical coverage (governorate versus area-based)
- Clarity on what roles/responsibilities to be absorbed and reconciled with work of ABCs

But handover to the ABCs:

- Would enable multi-sectoral joint mapping and implementation of activities at the local level
- Facilitate joint local level engagement with authorities

| Governorate | Humanitarian related coordination forum | Current ABCs Coverage |
|-------------|---|--|
| Ninewa | ICCG | Sinjar |
| | GCM | Ba'aj |
| | Cluster Forums | Mosul |
| Salahaddin | ICCG/GCM/Cluster Forums | Shirqat and Baiji |
| Kirkuk | ICCG | Hawija, Debis, Daquq |
| Anbar | ICCG/GCM/Cluster Forums | West Anbar (Al Ka'im, AL-Sagra, Ana, Haditha, Heet) |
| | | East Anbar(Ramadi, Habbaniyah, Falluja, Garma, Amiriyat Al-Samound |
| Baghdad | ICCG/Cluster Forums | |
| Diyala | ICCG/Cluster Forums | Diyala/Jalawla/Saadiya |
| Erbil | ICCG/Cluster Forums | |
| Suly | ICCG/Cluster | |
| Dohuk | ICCG | |

B. Transition proposal – Sub-National level (DS ABCs)

- Options:
 - 1. ABCs when existing integrate some key functions of clusters (but areas not covered by ABC remains un-addressed)
 - 2. Governorate level “transitional” forum with an area-level focus (POAs for Hotspot Areas) prioritization based on need and partner presence
 - Eg Kirkuk with a focus on Hawija and other areas such as Debis and Daquq as secondary
- Considerations for decisions:
 - Clarity needed from clusters on what roles/responsibilities will be handed over and how those can be reconciled with the work of the ABCs
 - Resource needs for the work of the ABCs, full time focal points, IM support?

Discussion

- Thoughts on the proposal and what other options could work to support the transition discussions?
- Proposed way forward – for discussion
 - A workshop between DSTWG and Clusters
 - Resource planning, mapping of scenarios based on resources
 - Bilateral engagement with cluster lead agencies re-sub-groups
 - Sharing of outcome of discussions with the DSTF and TAG
