Hotspots of severity

Overall Severity

Figure 1: Proportion of returnees by category of severity per governorate

	HIGH	
Governorate	No. of returnees	No. of locations
Anbar	84,174	21
Baghdad	11,136	13
Dahuk	0	0
Diyala	52,644	44
Erbil	0	0
Kirkuk	3,780	9
Ninewa	177,408	145
Salah al-Din	185,502	54
Total	514,644	286

1. An increase in the number of returnees living in severe or poor conditions has been observed in comparison with the previous Report published in March 2019.
2. the highest increase was observed in Baghdad and Anbar governorates
3. Ninewa and Salah al-Din remain the governorates hosting the highest number of returnees living in severe conditions
4. Salah al-Din also presents the highest intra-governorate proportion of returnees living in severe conditions (30%), along with Diyala (23%).

Integrated Location Assessment

Coverage

- Number of Assessed Locations : 3,645
    - 2,394 locations with IDP families (vs 3,116 in ML) – main difference is due to camps and not assessing about 700 locations with less than 5 HHs
    - 1,624 location with returnee families (vs 1662 in ML)
        - 373 of these locations host both IDPs + Returnees
- # of IDPs reached : 1,030,194 individuals (171,699 HHs)
    - Vs 1,607,148 (267,858 families) in ML
        - Excluding the camp IDPs, 94% of all IDPs were covered
- **# of returnees reached**: 4,272,132 individuals (712,022 HHs)
    - Vs 4,305,138 returnees (717,523 families)
        - 99% of all returnees were covered
- A little over 60% of locations reported having stayees
- REMINDER: CAMPS ARE NOT COVERED

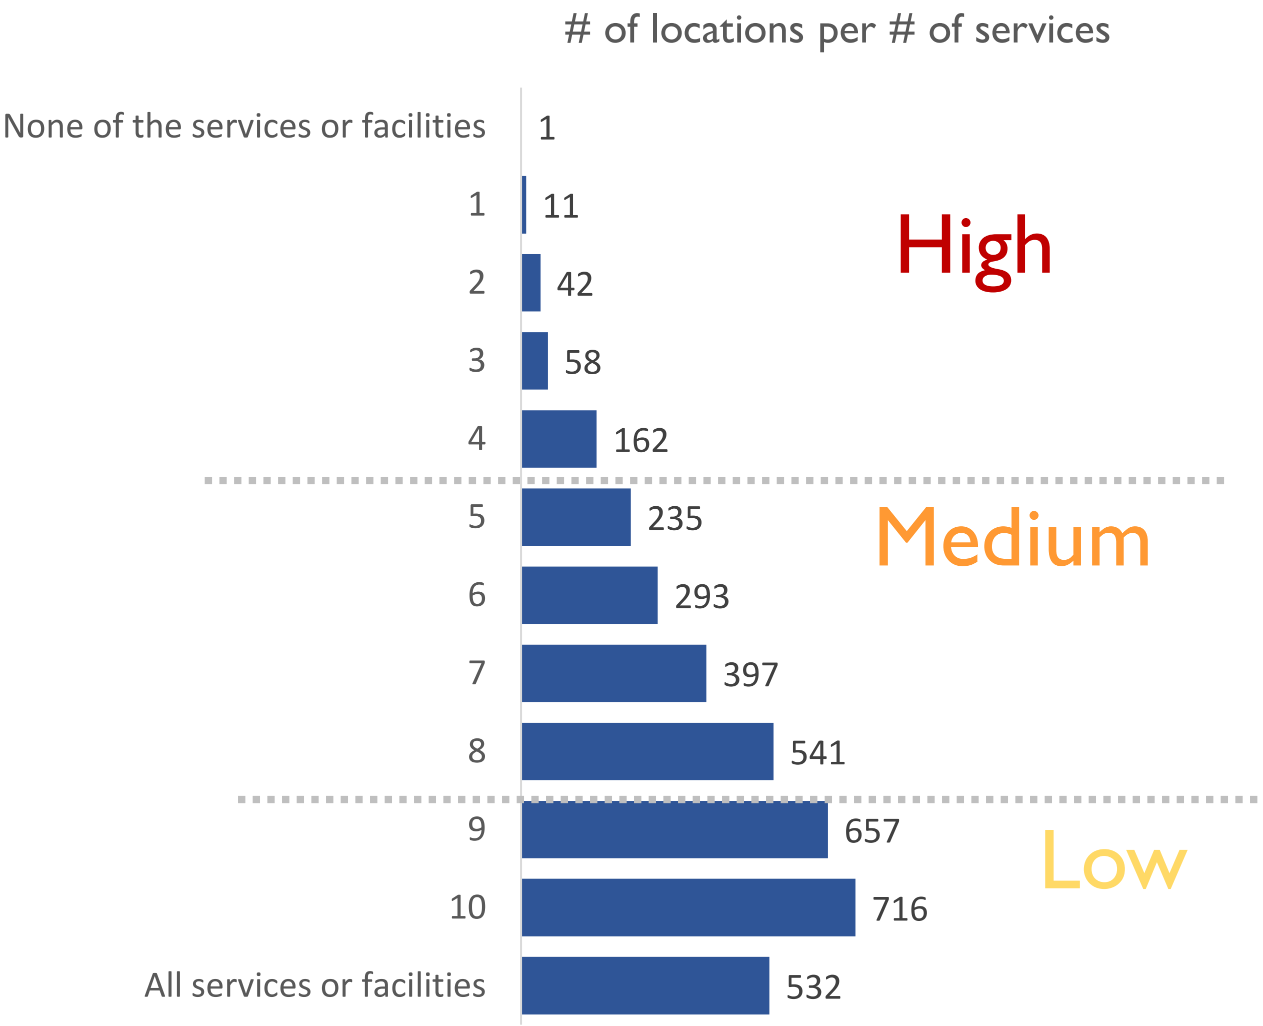
Infrastructure/services (Composite Index)

PROPOSED LIST OF SERVICES OR FACILITIES

- 75-100% of HHs have electricity
- 75-100% of HHs have water
- Access to waste collection
- Access to latrines
- Functional primary school within 5 km
- Functional secondary school within 5 km
- Functional health clinic within 5 km
- Functional hospital within 10 km
- Functional market within 5 km
- Office for replacement of civil documentation in the SD
- Legal services for HLP in the SD

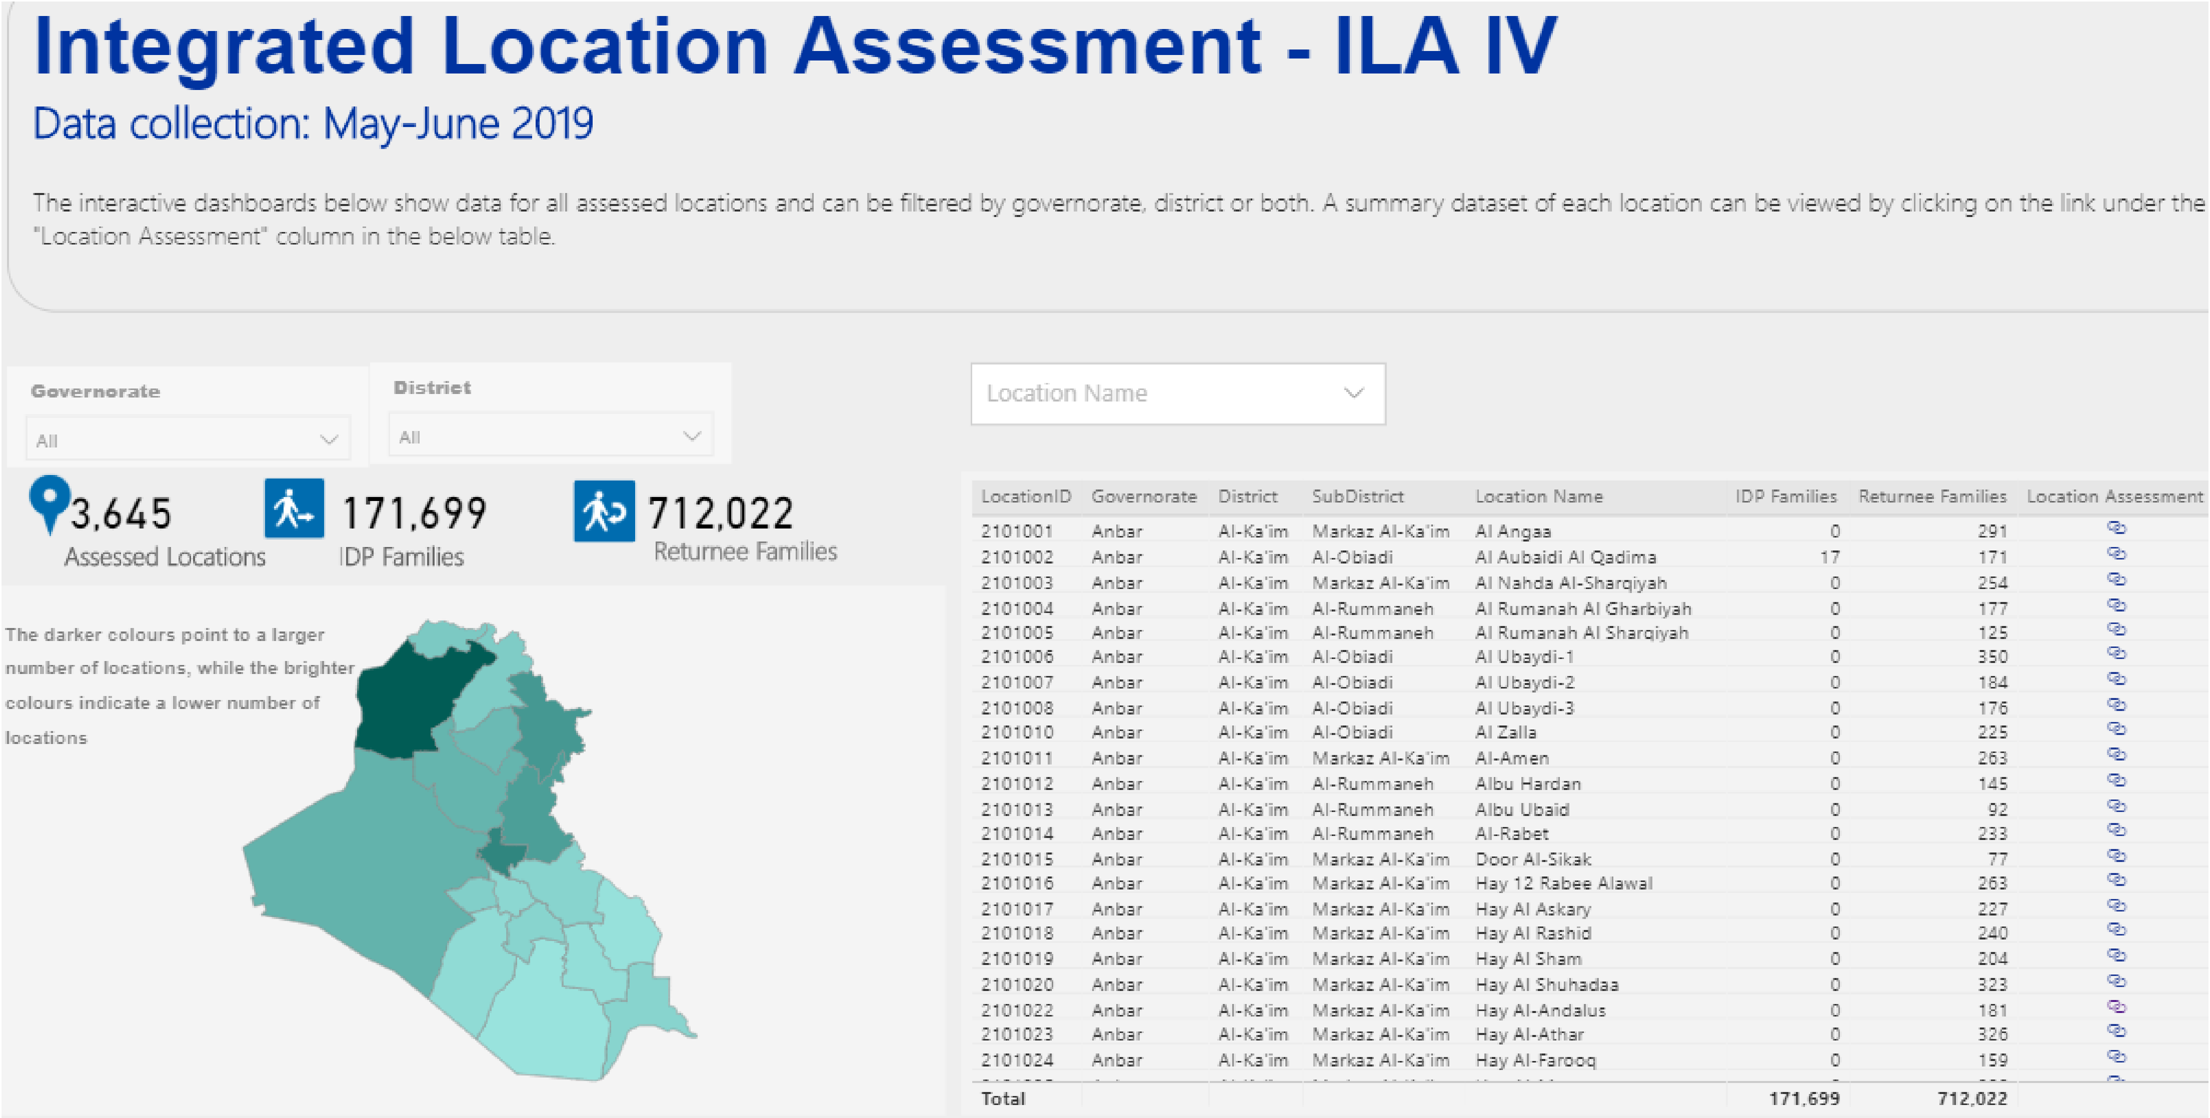


Dashboards

HNO Indicators

Cluster /Sector/Sub-cluster	Indicator
EDC	% locations with a functional primary and secondary school, or within 5km distance away
EDC	% locations (with access to functional schools) who reported sufficient certified teachers
EDC	% locations where most children (aged 6-12) are attending formal education
EDC	% locations where most children (aged 13-17) are attending formal education
FSC	% locations where most IDP/returnee households do not have sufficient access to food
FSC, CWG	% locations with a functional market/shop providing basic items and food, or within 5km distance away
Health	% locations with a functional health clinic, or within 5km distance away
Health	% locations with a functional hospital, or within 10km distance away
Health	% HH with access to a functional health clinic within 5km
Protection	% HHs experiencing daytime movement restrictions
Protection	% of locations where people experience daytime movement restrictions within the governorate
HLP, SNFI	% locations where IDP HHs have been reportdely evicted (either sent back forcibly to their area of origin, or forced to relocate within location of displacement
MA	% of locations where mines or UXOs are reported to be present
SNFI	% of IDPs/returnees by shelter type
SNFI	% locations where more than half of shelters reported to be damaged or in need of repair
SNFI	% locations where households are without access to electricity
WASH	% locations where households do not have enough water for their needs
WASH	% locations where the primary source of drinking water is acceptable in terms of colour, taste, and smell
WASH	% locations where households do not have access to private or communal latrines
WASH	% of locations without access to waste collection or communal garbage bins

Information per location



Integrated Location Assessment - ILA IV

Data collection: May-June 2019

The interactive dashboards below show data for all assessed locations and can be filtered by governorate, district or both. A summary dataset of each location can be viewed by clicking on the link under the "Location Assessment" column in the below table.

3,645 Assessed Locations

171,699 IDP Families

712,022 Returnee Families

The darker colours point to a larger number of locations, while the brighter colours indicate a lower number of locations
