Humanitarian Disarmament

NPA Iraq – IDP RE Concept

Norwegian People's Aid

Who we are

 *NPA is a politically independent membership based organisation working in Norway and in more than 30 other countries in the world.*

 ***NPA's vision is "Solidarity in Practice".***

 *NPA's activities are divided up into four key areas:*

 *First aid and Rescue Services*

 *Asylum and Integration*

 ***Development & Humanitarian Cooperation***

 ***Humanitarian Disarmament***

Norwegian People's Aid

Humanitarian Disarmament- Where we work

- **South Iraq**

CMR contamination

🏠 NTS, CMRS, BAC, RE

in Basra and Muthana Governorates

Operational recourses: 6 BAC teams, 1 CMRS team, 2

NTS&RE teams

- **North Iraq**

Improvised Landmines and other IEDs contamination

🏠 NTS, TS, IED CL, RE

in Ninewa Governorate

Operational recourses: 8 Manual teams, 2 Mech teams, 5

NTS&RE teams

- **Central Iraq**

Improvised Landmines and other IEDs contamination

🏠 NTS, TS, IED CL, RE

in Anbar and Diyala Governorates

Operational recourses: 5 NTS&RE teams, 6 Manual teams,

2 Mech team

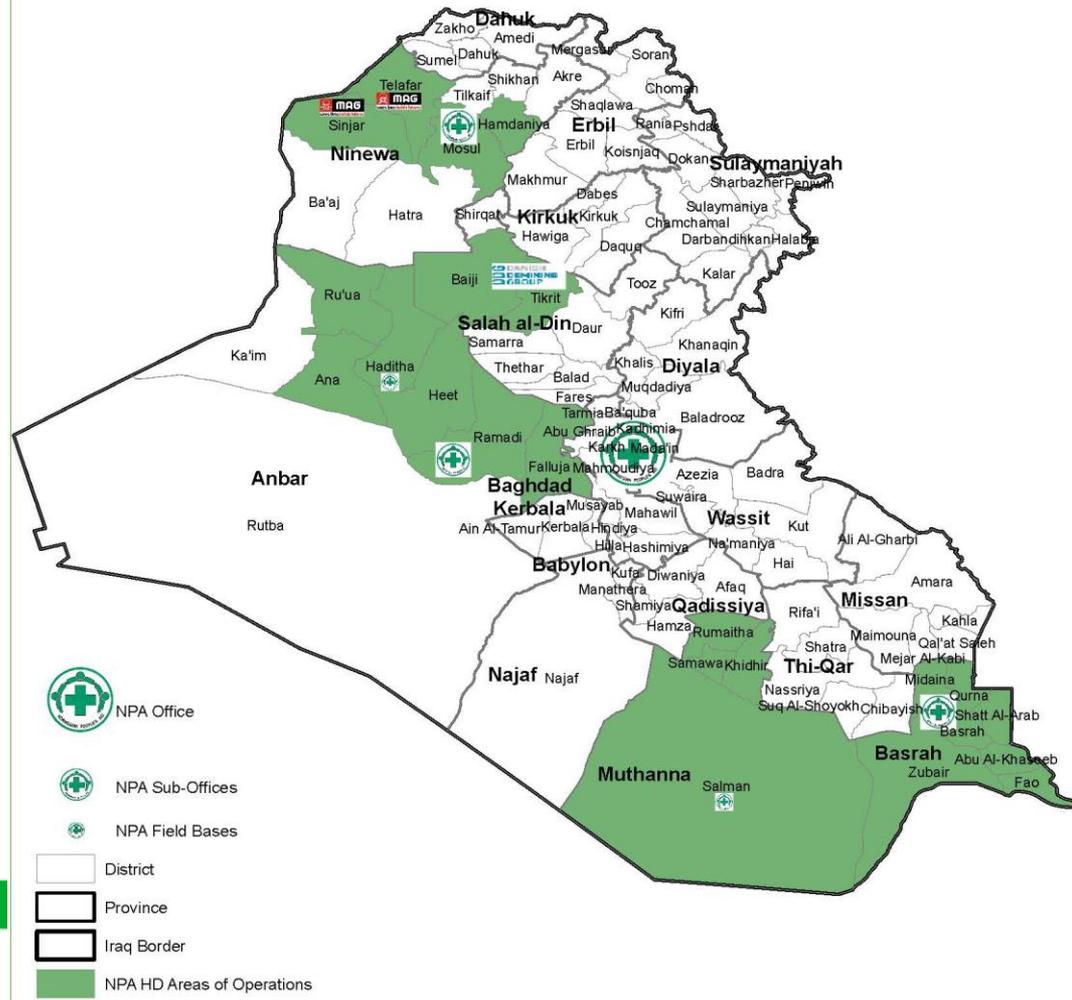

🏠 Capacity Development and Advisory Support

12%  IDPs CITING EXPLOSIVE HAZARDS AS TOP REASON FOR NOT INTENDING TO RETURN

23%  IN NEED OF PROTECTION ASSISTANCE

37%  LACK ACCESS TO REPRODUCTIVE HEALTH SERVICES

6%  OF HOUSEHOLDS WITH MEMBERS REPORTED TO BE DISABLED DUE TO EXPLOSIVE HAZARDS

Norwegian People's Aid

Concept – IPD RE

- NPA is conducting a comprehensive survey on ‘Explosive Ordnance’ contamination in several districts in Ninewa.
- Details on the actual contamination situation of villages MAY assist in a more informed decision for those IDPs with AoO of these villages considering return.
- **NPA cannot assure 100% safety.** NPA makes the application of ‘all reasonable effort’ in accordance with International Mine Action Standards (IMAS).
- The situation on the ground may change and the local authorities should be contacted for updates.

Survey Results

Surveyed – No Evidence (39)

1 – 2 weeks spent in village
5 person team (incl. women)
80% of households surveyed
Shepherds, land users sought

- 39 villages where no evidence of contamination can be found

Purpose

- Aid in impacting returnee decision-making by removing or reducing the fear of return, based on the actual evidence gained by NPA's Non-technical Survey results, conducted in accordance with International Mine Action Standards***

Implementation

- NPA has a 5 person team whom has Risk Education tasking authorisation from the Directorate of Mine Action (DMA) for Mosul, Hamdaniya and Talkaif Districts and could pass the message directly if access to relevant IDP's is possible.
- NPA could provide this information in the form of a 'factsheet' handout for protection cluster partners to pass onto IDP's from relevant AoO's.
- Partners would be asked to measure the activity via completing a simple form (Survey 123 Form)
- In February 2020, feedback will be sought on how the information is received, level of interest, does it achieve the purpose or not would be requested from partners.
- If results have significant impact, implementation may be considered for wider scale

Survey 123 Form

MRE General information

Date of report: Apr 17, 2019	Task ID: CI-NPA-199	
MRE ID: NIN-HM-Bartalah-MRE001	Donor name: ECHO	
Team name: NTS3	Organization: NPA	
Reported by: Yousif Abdulsalam	Reported by Position: Surveyor	
Province: Ninewa	District: Al-Hamdaniya	
Sub district: Al-Hamdaniya	Village: Bartalah	
Location name: في بداية برطلة		
Long: 43.3830917648775	Lat: 36.3538914370067	
MGRS: 38SLF5492024415		
Supported Activity type: Inter-displaced Persons		
Awareness type for impacted communities: ERW <u>مخلفات حربية</u> , IED <u>عبوات ناسفة</u>		
Type of session: Informal <u>غير رسمي</u>	Sub-Activity: Peer-to-peer- P to P <u>من صديق الى صديق</u>	
Material used: Factsheets <u>ملصقات</u>	Audience: Other <u>غير ذلك</u>	
Delivery Method: Community liasion <u>اتصال مجتمعي</u>	Duration of session (min): 10	
Folders: 0	Posters: 640	T-Shirts: 0
