INTER-AGENCY STANDING COMMITTEE DURABLE SOLUTIONS FRAMEWORK

Indicators to assess progress toward durable solutions stem from IASC Framework.

The framework defines three '**durable solutions**' — sustainable return, sustainable integration or sustainable resettlement — each of which depends on the fulfillment of eight criteria: (1) long-term safety and security; (2) adequate standard of living; (3) access to livelihoods and employment; (4) access to effective and accessible mechanisms to restore housing, land and property; (5) access to personal and other documentation; (6) family reunification; (7) participation in public affairs and (8) access to effective remedies and justice.

Criteria I	Criteria II	Criteria III	Criteria IV	Criteria V	Criteria VI	Criteria VII	Criteria VIII
Safety and security	Adequate standard of living	Access to livelihood	Restoration of HLP	Access to documentation	Family reunification	Participation in public affairs	Access to effective remedies and justice

- **0** when the vulnerability remained for a specific household.
- For example, 'feeling safe' or 'not reporting movement restrictions' is coded as a 1 as this is positive progress towards solutions.

Those who met only one criterion or none are categorized as achieved **low progress**, those who met two or three criteria as **medium progress** and those who met four or all five criteria as **high progress**.
