MERCY HANDS

Who are Mercy Hands?

Our History

After the **2003 attack** on UN HQ in Baghdad and the consequential major reduction of activities by international organisations **Dr Khaldoon Al-Moosawi** created a local **non-governmental humanitarian organization**.

Mercy Hands has since grown from a small local NGO to a **nationwide organization** that has helped **millions** of people.

Our Mission

Our mission starts with **saving lives** and extends towards the establishment of a **thriving, conflict-free, healthy** community. We remain dedicated to both **emergency** and **developmental** assistance.
